

JIMI NEWPORT

motion designer/ animator/compositor

I have spent over 20 years as a freelance motion designer and compositor in the broadcast & corporate industries, with clients including Samsung, RFU, Wickes, R&A, SRU, Google, Nokia, BMW, Led Zeppelin, Panasonic, Visa, Fiat, Coca-Cola and Sky.

I also provide David Shrigley's animation films and delivered the short film art installation pieces for 'Brain Activity' (Turner Prize nominee 2013).

My experience ranges from working within a small team for award winning studios, to sole responsibility for projects liaising between the Director and Producer, and managing other animators. I enjoy delivering solutions to complex animation briefs and utilising the wide aspects of my skill set.

I am looking for an opportunity to work within a team of professionals where I will be able to continue to develop as a visual communicator.
